WACACO

# ABOUT US

Founded in 2013, Wacaco is a startup company based in Hong Kong offering portable coffee makers. No electricity, no battery, we redefine the way to enjoy a cup of coffee with the help of your hand whether you are out for hiking, camping or simply stay at home or in the office.

From espresso to long coffee, we continue to amaze our community with the launch of Minipresso, the first piston-driven handheld espresso maker ever produced, to Nanopresso, Picopresso, Pipamoka and Cuppamoka, the sustainable coffee makers that are greatly beloved by our customers.

An innovative creation, durable, built to prepare authentic coffee drinks, all by Wacaco.

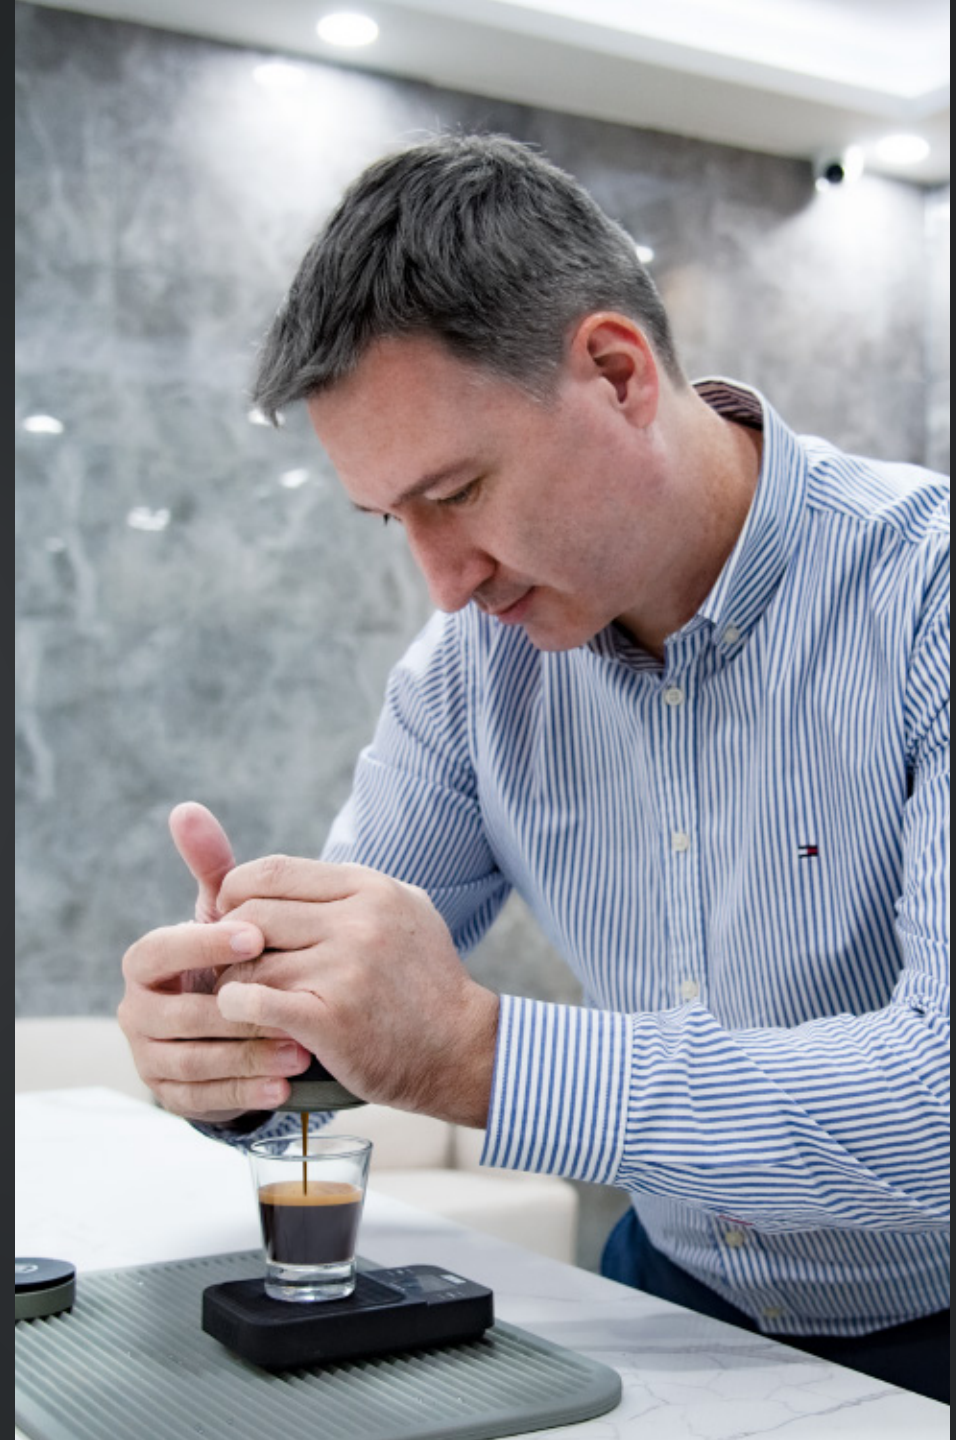

DESIGN CONCEPT

WACACO

# BRAND STORY

Hugo Cailleton, founder of WACACO and master degree's holder in industrial design, has been involved many years in the manufacturing of home espresso machine prior to initiate the development of the Minipresso. The idea of the portable espresso machine, allowing users to pull their own drink on the go, crossed his mind one morning during a business trip after having been disappointed by a poor espresso shot in a hotel.

Back home, he started to examine available offers, bought samples and tested them. But none of those products satisfied him totally. They were too heavy, had poor extractions, shots temperature was too low and they were over priced considering their occasional use. Accustom to enjoy great shots day after day, his creative spirit was set to elaborate an easy to carry device, with performance close to home machines, allowing consumers to produce good espresso anywhere at lower cost.

# NANOPRESSO DARK SOULS

## PORTABLE ESPRESSO MACHINE WITH PROTECTIVE CASE

For the creative spirits, the rebels, those cut from a different cloth and go against the grain, we present to you our newest Special Edition Nanopresso, the Dark Souls.

Beneath its rather intimidating appearance, the Dark Souls Edition knows how to charm. Decorated with an elegant enamel patch and embellished with fine golden-colored lines all around its body, its luxurious finishing seduces.

The Dark Souls illustration is created by Wacaco Design Team with the help of the French Designer /Artist SteF.

## ACCESSORIES

The Nanopresso is up for any task! It can easily create a wide range of espresso styles: ristretto, single shot, doppio, cafe lingo, and cold brew and can interchangeable use freshly ground coffee or encapsulated coffee pods.

### NS ADAPTER

The NS Adaptor allows the Nanopresso to use NS CAPSULES\* to prepare espresso.

\*NS CAPSULES refers to Nespresso®\*\* Original capsules and compatibles. Note that some non Original capsules might not work well with our machines.\*\* Third-party brand with no link to Wacaco Company Limited

### BARISTA KIT

The Barista Kit is a full set of accessories packed in a small container. It expands the Nanopresso capabilities by giving you the possibility to prepare double espresso (16 grams of ground coffee) up to 120ml.

### DG KIT

The DG Kit allows the Nanopresso to use Nescafé Dolce Gusto® capsules to prepare espresso and other coffee drinks like latte, cappuccino, macchiato...

\*DG CAPSULES refers to Nescafé Dolce Gusto®\*\*. Some non-genuine capsules might not be fully compatible.\*\* Third-party brand with no link to Wacaco Company Limited.

NS

A woman wearing a grey climbing helmet and a green jacket is sitting on a rocky cliff edge. She is smiling and using a small, portable coffee maker (Minipresso NS2) to brew coffee into a teal cup. Her climbing gear, including ropes and carabiners, is visible on the ground next to her. The background shows a vast, scenic view of a mountain range with autumn-colored trees under a clear sky.

## 12.9 cm **Extra compact**

Minipresso NS2 is 30% shorter than the previous generation. It's the smallest and most alluring capsule espresso machine available on the market, barely standing over the height of 4 capsules.

## 290 g **Even lighter**

The Minipresso NS2 makes your road to adventure more practical by significantly shrinking its overall weight without compromising its robustness.

## 18 Bar **Max pressure**

The new squircle profile offers a superior grip to hold the brewer and manipulate the water tank lid. The extra large piston makes the pumping action even more comfortable and smooth.

COFFEE MAT

BARISTA TOWELS PACK

# coffee mat

## COFFEE MAT

Compact and functional, made of food-grade silicone, it's completely odorless.

Multi-purpose - drying mat, tamping mat, preparation mat, hot trivet. Perfect companion to our portable coffee machines, and an essential tool of your coffee gear.

# Large silicone mat

Multi-purpose, the Wacaco Large Silicone Mat is heat resistant, waterproof, and easy to clean. Its unique double-side design offers two different surface patterns. A waved surface that maximizes airflow for a perfect drying mat, or a large plain surface area that can be used as a preparation mat. Made of silicone, the beautiful Wacaco Large Silicone Mat will be a great addition to your kitchen or coffee bar setup.

# BARISTA TOWELS PACK

These clothes are perfect for taking care of your portable espresso machine.

Perfect sized as preparation pad to help absorbing any water or coffee spillage.

They work best dry or slightly damp and will help to keep your coffee equipment and accessories clean.
